Italian ceramic excellence

Eccellenza ceramica italiana. Excellence céramique italienne. Italienische Keramik-Exzellenz.

Energieker is the synthesis of a long ceramic history. The brand was born in 1997 from the revitalization of an industrial reality active since 1986. Since then, continuous investments in research and technology have consolidated its position in the high-end market, making it an international protagonist of Italian ceramic craftsmanship. Recently, Energieker renewed its brand and inaugurated a prestigious new Headquarters in Pavullo, featuring a showroom of over 1,200 square meters to best showcase its extraordinary porcelain stoneware collections and large ceramic slabs.

Da allora, i continui investimenti in ricerca e tecnologia lo hanno consolidato nella fascia alta del mercato, fino renderlo un protagonista internazionale del Made in Italy ceramico. Di recente Energieker ha rinnovato il marchio e inaugurato un nuovo prestigioso Headquarters a Pavullo, dotato di uno showroom di oltre 1.200 mq per esporre al meglio le straordinarie collezioni in gres porcellanato e le grandi lastre ceramiche.

Sustainability into action

Sostenibilità concreta. Durabilité concrète. Konkrete nachhaltigkeit.

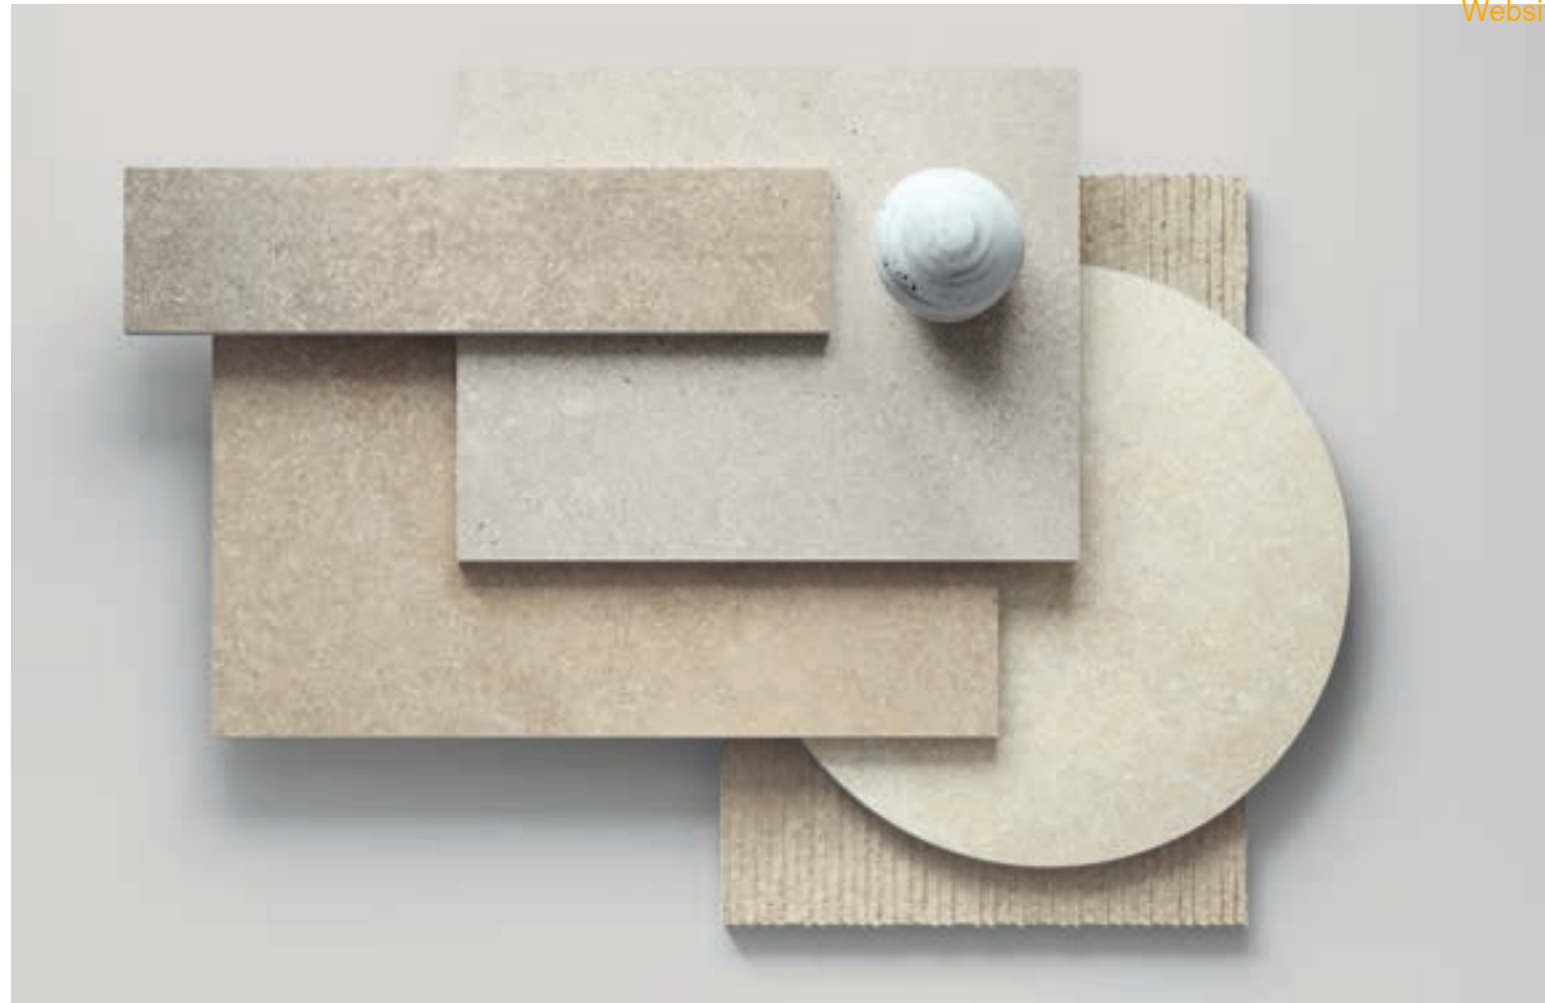

For us, sustainability is a tangible commitment: over 5 MW/h of self-produced energy, 100% recycling of water and production waste, international certifications, workplace safety, attention to employee well-being, logistics hub. All of this translates into a sustainable presence in the territory and a virtuous circle between the company, designers, clients, and end users.

Per noi la sostenibilità è un concetto concreto: oltre 5 MW/h di energia autoprodotta, riciclo del 100% dell'acqua e degli scarti di lavorazione, certificazioni internazionali, sicurezza sul luogo di lavoro, attenzione al benessere dei dipendenti, polo logistico. Tutto questo si traduce in una presenza sostenibile sul territorio e in un circolo virtuoso tra azienda, progettisti, clienti e utilizzatori finali.

Pour nous, la durabilité est un concept concret : plus de 5 MW/h d'énergie autoproduite, recyclage à 100 % de l'eau et des déchets de production, certifications internationales, sécurité sur le lieu de travail, attention au bien-être des employés, pôle logistique. Tout cela se traduit par une présence durable sur le territoire et un cercle vertueux entre l'entreprise, les concepteurs, les clients et les utilisateurs finaux.

Für uns ist Nachhaltigkeit ein konkretes Konzept: über 5 MW/h selbstproduzierte Energie, 100 % Recycling von Wasser und Produktionsabfällen, internationale Zertifizierungen, Arbeitssicherheit, Aufmerksamkeit für das Wohlbefinden der Mitarbeiter, Logistikzentrum. All dies führt zu einer nachhaltigen Präsenz in der Region und einem positiven Kreislauf zwischen dem Unternehmen, Planern, Kunden und Endverbrauchern.

Treasures and Gems

PRECIOUS INSPIRATION

Treasures and Gems captures the essence of precious marbles and rare minerals. The elegance of marble, the majesty of quartzites, and the allure of amethysts come to life on high-quality porcelain stoneware surfaces that faithfully reproduce the veining and detail depth typical of natural materials.

Treasures and Gems cattura l'essenza di marmi preziosi e minerali rari. L'eleganza del marmo, la maestosità delle quarziti e il fascino delle ametiste prendono vita su superfici in gres porcellanato di alta qualità che riproducono fedelmente le venature e la profondità di dettaglio tipica dei materiali naturali.
